

## **Blind Individuals Needed for a Research Study!**

*We are a Brown University research team headed by Dr. Elinor Amit trying to understand the effects of thinking style on decision-making. **We are looking for blind individuals to participate in a 20-30 minute online survey.** All participants will be entered into a lottery to win prizes of up to \$85!*

*You may be eligible to participate if you:*

- *Are blind*
- *Are able to complete an online survey using **audio screen reading software** (not Braille)*

*If possible, we also request that each participant recruit a sighted friend or family member to complete an identical survey. Sighted participants will be entered into a separate lottery for the \$85 prize!*

***Get started right away by clicking on the link below.***

*The entire survey can be completed online.*
