

We make theatre for everyone.

Discover accessibility opportunities at The Denver Center for the Performing Arts.

Learn about the various accessibility options at The Denver Center for the Performing Arts:

Audio Description brings the theatrical experience to those who are blind or have low vision. A trained describer narrates the visual elements of the performance including lights, costumes, actions and scenery.

ASL Interpreted performances are provided for patrons who are Deaf or Hard of Hearing. At the time of your ticket purchase, please request this service to ensure optimal seating location for viewing the interpreters and the stage.

Open Captioning is a text display located to the side of the stage that scrolls words in synchronization with the performance. It assists audience members with varying degrees of hearing loss and those who might not be able to catch every word.

Learn about the schedule for accessible performances
