BILL TOPIC: "Pilot Municipality For Sustainable Communities"

A BILL FOR AN ACT

101 CONCERNING THE CREATION OF A PILOT MUNICIPALITY TO FACILITATE
102 SUSTAINABLE COMMUNITIES BASED ON AFFORDABLE HOUSING.

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://leg.colorado.gov>.)

On solely a one-time basis within the state, the bill requires a state district court to waive all statutory requirements specified for the approval of a municipal incorporation that are not otherwise met by a petitioner if the petitioner files a request for such waiver with a state district court in accordance with the bill.

The bill defines "petitioner" to mean a natural person or entity that

seeks state district court approval of a pilot project in accordance with the bill and defines "pilot project" to mean a one-time project for approval by a state district court of a municipal incorporation to facilitate the creation of a model for a sustainable community with significant affordable housing.

The petitioner commences the process for acquiring a waiver by filing an application with an appropriate state district court. The application must be supported by the formal endorsement in writing of any 2 of the following 3 individuals in office as of the time the application is submitted to the district court:

- The governor of the state;
- The president of the state senate; or
- The speaker of the state house of representatives.

This formal endorsement must include a statement from the applicable elected official on his or her official letterhead as to why he or she believes approval of the pilot project is a model for sustainability and affordable housing while also being in the best interests of the people of the state.

Once a single waiver has been granted by a state district court under the bill, no additional waivers may be granted for any land area in the state under the bill unless the waiver has been approved by the general assembly by bill including the signature of the governor in accordance with all regular legal procedures and additionally by each of the 3 elected officials in accordance with the requirements of the bill.

A petitioner's request for a waiver must be filed with the district court not later than July 31, 2018. Any request for a waiver that is not filed by July 31, 2018, is of no legal force and effect.

If the petitioner satisfies all requirements, the district court is required to enter an order finding that the pilot project meets all of the applicable requirements, issuing the requested waiver and approving the pilot project that is effective as of the date of the order.

Upon the entry by a district court of an order issuing the requested waiver and approving the pilot project, the pilot project is designated a town and as of that date possesses all of the rights, powers, and duties delegated to or imposed upon the towns of this state as provided by law, including powers relating to land use, zoning, and related matters. The territorial boundaries of the town are coterminous with the land area of the pilot project as specified in the waiver application.

Not less than 90 days after entry of the order, one or more owners of real property located within the territorial boundaries of the town, acting singularly or in combination, as applicable, is required to appoint 5 individuals to serve as the members of a town commission. The commission serves as the governing body of the town, and possesses all of the powers and duties possessed under law by a town council, until such time as the town elects a town council and other elective officers.

The term of office of all such commission members is 4 years; except that, the term of office of members of the commission may terminate earlier than 4 years upon the election of the town council and other elective officers at which time the commission ceases to exist. An individual need not be a registered elector of the town in order to accept appointment to the commission but any person serving on the commission must be a resident of the state.

At such time as the number of residents of the town equals or exceeds 150 natural persons, the commission is required to hold an election for the purpose of electing a town council and other elective officers. To the extent practicable, the election must be conducted in accordance with the applicable provisions of existing law. Upon the election of the town council and other elective officers, the town council becomes the governing body of the town and such council members and other elective officers must perform their duties and responsibilities as provided by law.

The bill clarifies that the town possesses the same authority as any other government in the state to cooperate with or enter into an intergovernmental agreement with another government for the provision of any goods or services to assist in the development, management, operation, or administration of the town.

The pilot project opportunity is repealed, effective July 1, 2019.

Be it enacted by the General Assembly of the State of Colorado:
