

University of Colorado Denver Research Study

We want to hear from you!

If you:

- Are >18 years old, AND
- Are a clinician or staff member at a primary care clinic, OR
- Are a patient with a communication disability, OR
- Are a caregiver for a patient with a communication disability

WHO: Our team at the University of Colorado Denver is conducting a research study called **Improving Communication and Healthcare Outcomes for Patients with Communication Disabilities (INTERACT)**.

WHAT: We want to learn more about how to adapt the length, format, and content of existing interventions for improving patient-provider communication strategies among patients with communication disabilities to best fit the primary healthcare setting.

WHERE YOU COME IN: We think you are someone who is invested in this topic and would be able to give us input on the development of a patient-directed intervention to help determine what would be best to include.

IF INTERESTED:

- Attend a **60-minute** online focus group.
- Review existing communication tools and discuss your ideas about how to adapt them.
- Receive a **\$50 gift card** for your participation.

Please reach out to Carol Gorman at carol.gorman@cuanschutz.edu or 303.724.9356 and we will follow up to schedule a time for you to participate.
