Vision Dynamics has been providing **superior service** and **choice** to low vision and blindness individuals for fifteen years. We work with many manufacturers and have a huge selection of products so that you can be assured you're getting the best product for you.

We know that choice of not just product, but manufacturer is important, that is why we carry a variety of different brands so that you have the ability to select the best one for you! Come and learn about the newest and most innovative new products available and explore different solution options with Tracy Andrews of Vision Dynamics – a legally blind low vision consultant who uses these fantastic products every day!

Featured Products

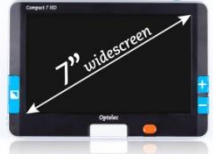

ABiSEE Vision

Eye-Pal Vision enables people with low vision to magnify images and objects. As well the ability to scan and read any printed material without asking anybody for help. Advanced 5 MP auto-focus, zoom able camera provides live magnification up to 14X. It is also scan an entire 8.5"x11" and convert it to speech. Fast, accurate and ready to read right out of the box, it enables you to scan bound books and save the contents on a flash drive as text or MP3 formats.

Optelec Compact 7HD

Imagine using a high definition magnifier providing a greater overview and more words per line combined with the best available image quality. The Compact 7 HD integrates the largest screen available in the Optelec Compact product family; still it is small enough to be carried easily from one location to another.

Issist Flick

Flick is the first portable, immersive, one-camera system that provides the low vision user with a revolutionary, multi-function camera system that is suitable for home, school or office use. Flick goes far beyond the features you have come to expect from a portable camera system – come see how Flick is all you need!

Hims, Inc. CANDY GRIP

Have trouble reading the small print on prescription bottles, viewing restaurant menus or seeing price tags and product labels when you're shopping? There's no reason to struggle bringing everyday items into focus. Now you can see even the finest details clearly - whether you're at home or out and about! CANDY GRIP is the first HD handheld video magnifier offering a large 5.0" wide-screen LCD HD image, as well as a unique, ergonomic 3-position handle for center-balance, right-handed or left-handed use.

Optelec 24" High Definition ClearView

Imagine being able to see things more clearly with a powerful magnification solution that is very simple to use. The best-selling ClearView+ video magnifier is designed for the benefit of people with low vision, including those with age-related macular degeneration. Featuring true high definition camera technology and an HD screen (1920 x 1080 pixels), the ClearView+ Full HD Colour provides superior images. Characters appear smoother whilst reading and photographs of friends and relatives are clearer.
