

Parents of All Abilities

Facilitated by:

**Kimberly Svevo, Rachel Fuentes, Maryam
Ebadi, Timotheus Gordon**

You are invited to Join a parenting program that benefits all parents universally of children of all ages and abilities. Join in community conversations that also address challenges you experience in living with a disability or having a child with a disability.

Share ideas on how you and/or your child can be better supported in the community.

Explore the "Best Start" Curriculum and discover the best practices to apply to your family dynamic.

Current topics for parents with disabilities are covered each week

Effects on the Caregiver

- More loving and positive
- More attentive and responsive to the child's initiatives
- More able to communicate in a non-verbal way with the child
- Giving more praise and confirmations to the child
- Giving more names and descriptions to what the child experiences
- Giving more explanations and expansions
- More positive regulations and more positive limit setting
- Less physical punishment / neglect.

Effects on the Child

- More positive and open, more responsive to emotional cues
- More self confident and active, following more own ideas and initiatives
- Asks more questions and becomes more explorative
- With more developed creativity and imagination, strategic thinking
- More interested in explanations and comparisons
- More able to plan and reflect ahead;
- More able to control his/her immediate impulses, adjusting more readily to others and more able to follow rules of co-operation.
- More sensitive to the feelings and needs of others.
