

Workforce Community Engagement

How Amazon can help support your
candidates looking for jobs

Our local community partners are very important to us at Amazon and play a huge role in our day to day success. We want to provide a seamless process for your candidates by partnering with your organization to deliver great job opportunities.

What our Amazon Team can offer community partners:

Our Workforce Staffing teams will work with your organization to find a fit where we can help the community where needed:

Informational Sessions

We can provide Amazonians from our Workforce Staffing team to conduct informational sessions to your staff or clients such as: life at Amazon, upskilling initiatives, and the hiring process.

New Hire Events/Career Fairs

Hire Events are the last step to a job at Amazon and your clients will leave with contingent offers, as long as they meet job requirements. Career fairs are a great way for your clients to interview employers. Our teams can be deployed to your location for these events and look forward to talking to future Amazonians!

Workshops

Many of our community partners conduct workforce development programming for their clients such as resume writing, mock interviewing, and employer days. We are here to help!

Partner with Amazon to deliver great job opportunities to your clients:

Upskilling Programs

Amazon wants to develop our associates. We offer various upskilling programs to support those who wish to grow in and outside of Amazon.

Future Growth Opportunities

At Amazon we want to help our employees develop in their careers. Our team members are encouraged to apply for roles in other teams, and other locations, to advance their careers.

Streamlined Application Process

Here we focus on your candidate's skills for the job, not their resume writing or interviewing skills. So long as your candidate meets the job requirements, they will get a job offer on-the-spot!
