

The Maryland School for the Blind
— ACHIEVING INDEPENDENCE —

Live JAWS Training

When: September 16, 2019 Live (no recording will be available)

Time: 1:00 pm EST

Learn all about the basics of JAWS, how to teach JAWS to your students and get all of your questions answered. This session will NOT be recorded, so join live to get in on it.

Chancey Fleet will be giving this webinar. Chancey Fleet, a Brooklyn-based accessibility advocate, coordinates technology education programs at the New York Public Library's Andrew Heiskell Braille and Talking Book Library. Chancey was recognized as a 2017 Library Journal Mover and Shaker. She writes and presents to disability rights groups, policy-makers, and professionals about the intersections of disability and technology. During her fellowship, she plans to advance public understanding of and explore best practices for visual interpreter services as well as other technologies for accessibility whose implications resonate with the broader global conversations about digital equity, data ethics, and privacy.

This webinar will be conducted via Zoom. After registering, you will receive a confirmation email containing information about joining the meeting.
