Diversity Externship Program

At UnitedHealth Group, diversity isn't just a corporate buzzword. It's the way we work, and it comes through in everything we do. From the high-performing people we hire, to the health care services we provide, we advocate the possibilities of unique thinking.

We've become a Fortune 25 company by creating an inclusive environment fueled by innovative ideas. Our employees have diverse cultural backgrounds, beliefs, perspectives, and lifestyles. But they all have one thing in common — their ability to excel.

Right now, we're working to build the health care system of tomorrow. One that will work better for more people in more ways than ever.

A goal with this kind of magnitude requires the brightest, most forward-thinking minds around. We have them here. And they're making a difference.
