

## Continue to Shape Your Future: Beyond 2020

### U.S. Census Bureau Partnership Agreement Form

Thank you for your support as a 2020 Census partner! The U.S. Census Bureau appreciates your tremendous contributions which aided us in achieving a complete and accurate count for the 2020 Census!

Now that the 2020 Census has concluded, we would like to continue this partnership and expand it to include all Census initiatives that are relevant to the communities you serve. We invite you to partner with us to bring awareness to the importance of all Census Bureau Data and how it impacts the community you live in; promote the more than 130 other surveys conducted by the U.S. Census Bureau; help us to recruit for Census Bureau jobs within your communities and stay engaged with us as we begin planning for the 2030 Census.

You can make a difference whether you have just a moment to spare or can commit to a sustained effort. Please check activities in which you are interested in participating in:

- Partner Collaboration Forums** - engage and collaborate with us and other local partners as we develop local outreach strategies for the 2030 Census.
- Increase awareness** regarding Census Bureau Data within your communities. Talk to a Data Expert — Connect with one of the Census Bureau's data dissemination specialists across the country and learn how to make the most of our data.
- Spread the word — **Share or download** Census Bureau data products, visualizations and infographics, stories, and videos on your social media platforms.
- Get in touch with our State Data Centers and Census Information Centers. These official sources of demographic, economic, and social statistics provide local training and technical assistance for research, planning and decision-making in your community. **Participate in training opportunities.**
- Consider becoming a Research Data Center (RDC) and/or collaborate with RDCs to identify research projects for underserved communities.
- Let us show you how to find and use Census Bureau data. Whether you are looking for economic or demographic data, we can teach you how to get what you need. Check out our educational resources.

- Maintain your Complete Count Committees and utilize them to promote data awareness and ongoing surveys.
- Join The Opportunity Project — Partner with The Opportunity Project to use open data to create digital tools that strengthen American economic opportunity.
- Become a Statistics in Schools Ambassador — Statistics in Schools (SIS) brings school subjects to life using real-world Census Bureau statistics to create materials for use year after year for K-12 students. As a SIS Ambassador, you can help bring these engaging resources and activities in social studies, math, English, geography, sociology and more to schools in your area.
- I would like to receive occasional emails from the Census Bureau per the terms of the Data Protection and Privacy Policy.
- The Census Bureau has permission to publicize this partnership.

**Congratulations! Thank you for continuing to partner with the U.S. Census Bureau.**
