When one thinks of diversity what comes to mind? Usually, we think of race, religion, and ethnicity. This symposium, appropriate for students, faculty, and professionals, will explore "Diversity in Disability." Disability is not an obstacle; it's a difference! Hear presenters from our very own Western New York area, question panel participants, and see exhibits from Buffalo's one of a kind Museum of disABILITY History as we explore and grow to understand and appreciate these differences.

This year's Diversity in Disability Symposium is made possible with support from the UB Office of Equity, Diversity, and Inclusion, the UB Humanities Institute, and the New York State Disability Services Council. If you would like to support this event financially, please contact David Dodge at daviddod@buffalo.edu
