(Budget authority in billions of dollars)

* \$500 million or less.

- ¹ The Budget Control Act of 2011 (BCA) amended the Balanced Budget and Emergency Deficit Control Act of 1985 (BBEDCA) by establishing statutory discretionary caps for 2012 through 2021 with separate categories in 2012 and 2013 for “Security” and “Nonsecurity”. These categories were revised on January 15, 2012 to equal all accounts in budget function 050 for the “Defense” category with all other amounts in the “Non-defense” category. The American Taxpayer Relief Act of 2012 reinstated the Security and Nonsecurity caps for 2013.
- ² The 2014 Budget proposes changes to the current law caps in the BBEDCA, as amended, for the reclassification of certain Transportation programs and further reductions as part of the Administration’s policy to achieve additional deficit reduction.
- ³ Where applicable, amounts in 2012 through 2023 are existing or proposed cap adjustments designated pursuant to Section 251(b)(2) of the BBEDCA, as amended. Amounts in 2010 and 2011 are not so designated but are shown for comparability purposes.
- ⁴ Because final decisions about the pace of the drawdown in Afghanistan have not yet been made, the Budget includes a placeholder for the Department of Defense’s 2014 OCO funding, equivalent to the amount provided in the 2013 Budget. The Administration will submit a Budget amendment to Congress updating the DOD OCO request after a determination has been made on required force levels in Afghanistan.
- ⁵ The Budget includes placeholder amounts of \$37.3 billion per year for Government-wide OCO funding from 2015 to 2021. These amounts reflect the Administration’s proposal to cap total OCO budget authority from 2013 to 2021 at \$450 billion but do not reflect any specific decisions or assumptions about OCO funding in any particular year.
- ⁶ Amounts in 2010–2012 are not designated as emergency funding pursuant to Section 251(b)(2)(A) of the BBEDCA, as amended, as they include congressionally-designated emergencies, rescissions of funding provided in the American Recovery and Reinvestment Act of 2009 (P.L. 111–5), and other supplemental funding.

¹ Amounts in the actuals years of 2010 through 2012 exclude changes in mandatory programs enacted in appropriations bills since those amounts have been rebased as mandatory, whereas amounts in 2013 and 2014 are net of these proposals.² The 2014 Budget proposes changes to the current law caps in the BBEDCA, as amended, for the reclassification of certain Transportation programs and further reductions as part of the Administration’s policy to achieve additional deficit reduction.³ The Department of Defense (DOD) levels in 2015–2023 include funding that will be allocated, in annual increments, to the National Nuclear Security Administration (NNSA). Current estimates by which DOD’s budget authority will decrease and NNSA’s will increase are, in millions of dollars: 2015: \$1,196; 2016: \$1,444; 2017: \$1,602; 2018: \$1,665; 2019: \$1,702; 2014–2023: \$14,816. DOD and NNSA continue to review aspects of NNSA’s outyear requirements and this will affect outyear allocations made by DOD to NNSA.⁴ Funding from the Hospital Insurance and Supplementary Medical Insurance trust funds for administrative expenses incurred by the Social Security Administration that support the Medicare program are included in the Health and Human Services total and not in the Social Security Administration total.⁵ The 2014 Budget includes allowances, similar to the Function 920 allowances used in Budget Resolutions, to represent amounts to be allocated among the respective agencies to reach the proposed defense and non-defense caps for 2015 and beyond. These levels are determined for illustrative purposes but do not reflect specific policy decisions. 2013 also includes an allowance amount to bridge from the 2013 request level to 2013 caps, as enacted in ATRA.⁶ Where applicable, amounts in 2012 through 2023 are existing or proposed cap adjustments designated pursuant to Section 251(b)(2) of the BBEDCA, as amended. Amounts in 2010 and 2011 are not so designated but are shown for comparability purposes.⁷ Because final decisions about the pace of the drawdown in Afghanistan have not yet been made, the Budget includes a placeholder for DOD’s 2014 Overseas Contingency Operations (OCO) funding, equivalent to the amount provided in the 2013 Budget. The Administration will submit a Budget amendment to Congress updating the DOD OCO request after a determination has been made on required force levels in Afghanistan.⁸ The Budget includes placeholder amounts of \$37.3 billion per year for Government-wide OCO funding from 2015 to 2021. These amounts reflect the Administration’s proposal to cap total OCO budget authority from 2013 to 2021 at \$450 billion but do not reflect any specific decisions or assumptions about OCO funding in any particular year.⁹ Amounts in 2010–2012 are not designated as Emergency funding pursuant to Section 251(b)(2)(A) of the BBEDCA, as amended, as they include congressionally-designated emergencies, rescissions of funding provided in the American Recovery and Reinvestment Act of 2009 (P.L. 111–5), and other supplemental funding.

¹ A decrease in the Treasury operating cash balance (which is an asset) is a means of financing a deficit and therefore has a negative sign. An increase in checks outstanding (which is a liability) is also a means of financing a deficit and therefore also has a negative sign.

² Includes checks outstanding, accrued interest payable on Treasury debt, uninvested deposit fund balances, allocations of special drawing rights, and other liability accounts; and, as an offset, cash and monetary assets (other than the Treasury operating cash balance), other asset accounts, and profit on sale of gold.

³ Consists mainly of debt issued by the Federal Financing Bank (which is not subject to limit), debt held by the Federal Financing Bank, the unamortized discount (less premium) on public issues of Treasury notes and bonds (other than zero-coupon bonds), and the unrealized discount on Government account series securities.

⁴ Legislation enacted February 4, 2013, (P.L. 113–3) temporarily suspended the debt limit through May 18, 2013.

⁵ Treasury securities held by the public and zero-coupon bonds held by Government accounts are almost all measured at sales price plus amortized discount or less amortized premium. Agency debt securities are almost all measured at face value. Treasury securities in the Government account series are otherwise measured at face value less unrealized discount (if any).

⁶ At the end of 2012, the Federal Reserve Banks held \$1,645.3 billion of Federal securities and the rest of the public held \$9,635.8 billion. Debt held by the Federal Reserve Banks is not estimated for future years.
