Get ready for an incredible weekend with us! This student seminar, themed "Capable and Confident," is the perfect opportunity for blind students to come together, grow, and learn from each other. Throughout the weekend, you'll be part of an authentic community that values independence, competence, and self-love. You'll have the chance to network with peers and mentors who have accomplished amazing things and will inspire you to do the same. But this seminar is more than just about learning - it's about getting comfortable with the uncomfortable and challenging yourself to reach new heights. You'll come away from this weekend with a close connection to fellow blind students and a newfound sense of pride in your abilities. Don't miss out on this empowering experience - sign up for the 2023 National Association of Blind Students Pacific Seminar today!
