## Description:

Workshop attendees will be tantalized by an exciting variety of assistive technology (AT) devices and services in our community. Presenters will discuss and demonstrate AT for the workplace, for the academic environment, and for the home.

This dual stranded workshop is designed for professionals and non-professionals alike who either work with or know a person with a disability. Teachers, therapists, case coordinators, direct service workers, college/university special education students, social workers, individuals with disabilities, and family members will significantly benefit from attending this event.

## Agenda:
