Multiple 26 stitches

In my scarf I added 2 stitches at each end which will be knit in all rows. You can make it as wide as you want just increasing 26 stitches for each panel. The sample shows it done with 26 stitches for the pattern + 4 sts(two at each end)

Materials: Manos del Uruguay merino/silk blend

Needles # 9

Gauge is NOT important

Remember to put a stitch marker after the stitches for the edges and KNIT those in all rows.

The stitch count does not change in the pattern rows, you'll always have 26 stitches on each section (if you want it wider remember to increase by 26 stitches)
