AAAS | Entry Point!

SHOWCASING TALENT, ENTHUSIASM, AND COMMITMENT

ABOUT ENTRYPOINT!

The AAAS Entry Point! program seeks talented undergraduate and graduate students with disabilities for 2027 science and engineering summer internships.

Please visit www.EntryPoint.org and apply as soon as possible for the best opportunities.

Applications will be accepted
September 2 - February 12, 2027.

PARTNERS FOR 2026

Entry Point! partners include government, industry, and university research programs.

ELIGIBILITY CRITERIA

- Acceptance is on a rolling basis.
- Full-time enrolled student before and after summer 2027.
- Cumulative GPA of 3.0 or higher
- Major in Life Science, Chemistry, Mechanical, Electrical, and Biomedical Engineering, Physics/Mathematics, Computer Science, Biology, and Neuroscience.
- Documented apparent or non-apparent disability*

*AAAS does not disclose information about disability to partners without permission from the student. Students needing accommodations for an interview and/or internship placement will work with the partner and AAAS to make the necessary arrangements.

"Through AAAS I had the amazing opportunity to intern for the SMART Program at CU Boulder. This internship allowed me to develop skills in research labs, broaden my academic and professional career, and experience a new place. Become of this, I have been set up to become a better student and researcher in my STEM field."

— TATIANA WRIGHT - 2026 INTERN

"The opportunity to work at Amgen this summer has given me invaluable insight into the biotech industry. I've gained a deeper understanding of how a leading biotechnology company operates and been able to connect with knowledgeable professionals across several branches of the company. This experience has broadened my perspective on potential career paths after college and given me the confidence and experience to pursue future opportunities in this industry."

— SONJA LIPPMAN- 2026 INTERN
