Callbacks: 1/29/14

Shoot: 1-2 days between 2/4/14 - 2/8/14

Run: Wild Spot and Local Cable, could possibly become National

Rate: SAG Scale, potential to make several thousand dollars

Looking for totally and/or mostly blind men and women between the ages of 30 - 60 years old, any ethnicity, for a TV commercial for Vanda Pharmaceuticals for the Non-24 syndrome. Non-24-Hour Syndrome is a chronic circadian rhythm disorder caused by lack of light perception in those that are totally blind.

If you are interested in auditioning for this project please send me a photograph of yourself with a little bio about yourself. If possible a little video, even one just taken on a cell phone would be great. Feel free to call my office at 323-692-1800 x107 or even better email me at sonnenbergcasting@gmail.com

If you know someone else that may be interested feel free to pass along this information as well.

Thank you.
