

## Connect 12

SEE MORE. DO MORE. NOW EASIER THAN EVER.

Seeing more and staying connected has never been this clever and simple

The newly redesigned Connect 12 combines a high-performance digital magnifier with the versatility of an Android tablet, plus unmatched ease of use and integrated access to online libraries such as Bookshare. This ideal solution for students with low vision allows free and open access to more than a million apps.

# THE BIG PICTURE

## An integrated digital magnifier for the connected classroom

Smarter and more connected than all other low-vision products, HumanWare's Connect 12 is the evolution of the most advanced digital magnifier product line. The new interface options gives you all the tools you need in one place, allowing you to choose what you want to do: enlarge a printed document, read a book from the Bookshare library, adjust for your visual comfort, write an assignment, take a test and more.

# TONS OF FEATURES

## Intelligence and convenience in one powerful tool

Augmenting the Connect's renowned attributes with a set of outstanding features makes the Connect 12 a powerful tool for low-vision users, whether you're at school, at home or on the go.

New Diamond Edge™ high visibility icons
