

Don't miss this Public Demonstration!

**See the Voting Systems that may be used
in Maryland's elections beginning in 2016.**

**Tuesday, September 16th
2:00 p.m. to 7:00 p.m.**

**University of Baltimore
Yale Gordon College of Arts and Sciences
Learning Commons
1415 Maryland Avenue – 1st Floor Main Lobby
Baltimore, MD 21201**

The Maryland State Board of Elections, in cooperation with the University of Baltimore, will conduct a public demonstration of voting systems developed by Election Systems & Software, LLC (ES&S), Everyone Counts, Inc., and Hart Intercivic Inc.

Join us to try out and learn about the voting systems being considered for use in Maryland's elections beginning in 2016. Each system produces a paper record that can be read by precinct-based optical scanners, as required by legislation passed by the General Assembly in 2007.

The demonstration is free and open to the public. No reservations are required. Participants may submit comments about the proposed voting systems.

The building is accessible for people with disabilities.

Visit UB's website (www.ubalt.edu) for directions and parking information.
