Flint Water Advisory

Date/Time:

Effective Wednesday, January 7, 2015

Details:

The City of Flint recently sent out the attached notice regarding violations to the drinking water standards. While the City of Flint states that corrective actions are not necessary, DTMB is in the process of providing a water cooler on each occupied floor, positioned near the water fountain, so you can choose which water to drink. The coolers will arrive today and will be provided as long as the public water does not meet treatment requirements.

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. [Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.](#)

Budget recommendation will include \$30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a \$30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will

and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

[Click here to learn more about the budget request.](#)

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **[Click here to watch the video.](#)**

From: Director Mike Zimmer
Sent: Tuesday, January 26, 2016 8:02 AM
Subject: A Note from the Director - Flint Water Fundraiser

Dear LARA Team,

As part of our continued efforts to assist the citizens of Flint affected by the water crisis, LARA will be holding an employee fundraiser. This fundraising effort is a great opportunity for LARA employees to support Flint citizens by providing funds for water, water filters, and other essential items they might need.

The fundraiser will begin today and run through Friday, January 29. Monetary donations will be collected by each bureau director's administrative assistant, and all LARA employees who donate will be eligible to wear blue jeans on Monday, February 1.

To those of you who have already donated time, money, or water to assist the citizens of Flint, I am truly grateful for your generosity. Please know that you may also participate in the February 1 blue jeans day without any additional donation necessary; just notify your bureau secretary that you have already contributed to the cause in order to participate in the blue jeans day.

For any employees who would like to provide additional help to the citizens of Flint, several opportunities are available to do so. Please visit www.helpforflint.com to learn how you can volunteer to help.

For additional information and updates, visit www.michigan.gov/flintwater.

Thank you to everyone for coming together as a team to offer our continued support to the citizens of Flint.

-Mike

How we are fixing the Flint water crisis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." [Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.](#)

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been

harmful. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." [Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.](#)

Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." [Watch Governor Snyder's full closing statement from his 2016 State of the State address.](#)

Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." [Click here to read the Governor's full op-](#)

ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. [Click here to read the full story in the Washington Post.](#)

Shenique I really appreciate you reaching out to me personally and the people of Flint!! You ARE definitely making a difference. People have asked me about it and even made jokes, but NO ONE has offered me water besides my mother and you. That's the truth. So thank you! It's getting expensive because I cook with bottled water now because I just don't know. Like I said, I live in Grand Blanc, but you can never be too sure and I would rather not risk it... Going through your church is a great move though. These people need it as well as the blessings that will cover every case along the way from Kalamazoo to Flint ☺

I am taking the water to one of the churches here (my church, Mt Zion). My Pastor made a push for all the churches (Northside Ministerial Alliance) in our area to donate water and the City of Kalamazoo volunteered to transport the water to Flint. So I will purchase the water and take there and it will be on its way to Flint Tuesday. It saves me a trip. I really did want to bring it there personally, but that won't be happening. The water is being transported to one of the Flint churches. They said they within the community and people can come and graciously get water.

I'm trying not to be discouraged. I would like to volunteer my time but I can't during the week. An 8 hour day would be take up with 5-6 hours of travel and I have to be home for my children. I really wanted to do something to make a difference. Maybe I still am. I hope you're not affected by the lead in any way. Guess I'll catch you at the mandatory staff meeting. 😊

Now you know it's bad when the bottled water is bad. Come'on!!! I am purchasing bottled water today and will be bringing it to the Flint office Monday. I have contacted Beth and Janet. Yall got room for about 50 cases of water to take home or drink at the office or take to consumers' homes when you do visits?

Hey!!

I live in Grand Blanc, but it's SO CLOSE that I'm not sure what is really going on with my water either. I don't drink anything around here anymore. It's scary because I think of all of the times I used our water fountains here in the Flint office before they provided us with a filtered water machine, and all of the times I've bought coffee and eaten out at Flint restaurants. It is really sad for the children and the elderly, but many people are affected. I'm surprised that they have not tested us Flint-based SOM employees for lead. I'm going to get my blood tested by my PCP in a week or so because she wants to document my levels just in case... Also, I just heard yesterday from other staff in this building that some of the water that was donated to families here has a recall! Whichever brand that had Star Wars on it recently, not sure which it was smh. So people are drinking tainted bottled water as opposed to the tainted Flint water. It is crazy around here...

Flint Water Quality

Details:

DTMB commissioned testing of the water in the Flint State Office Building and the results show our water poses no health threats. Although the water is safe to drink, we will continue to provide water coolers in common areas on floors 1-6 of the Flint State Office Building until we are connected to the Detroit water system.

If you have any questions, please contact the Flint Building Trades Supervisor, Brian Walts, at WaltsB@michigan.gov or 810-760-2044.

Contact:

DTMB Customer Service Center, DTMB-Customerservice@michigan.gov or 517-373-6227

According to the Clean Air Council, the average American throws away enough paper each year to build a 12-foot wall from Los Angeles to New York City. Consider going paperless by saving documents and manuals on a common server instead of handing them out in hard-copy form. If you must print a multi-page document, be sure to use the double-sided printing feature.

Flint Water Advisory

Date/Time:

Effective Wednesday, January 7, 2015

Details:

The City of Flint recently sent out the attached notice regarding violations to the drinking water standards. While the City of Flint states that corrective actions are not necessary, DTMB is in the process of providing a water cooler on each occupied floor, positioned near the water fountain, so you can choose which water to drink. The coolers will arrive today and will be provided as long as the public water does not meet treatment requirements.

Shenique I really appreciate you reaching out to me personally and the people of Flint!! You ARE definitely making a difference. People have asked me about it and even made jokes, but NO ONE has offered me water besides my mother and you. That's the truth. So thank you! It's getting expensive because I cook with bottled water now because I just don't know. Like I said, I live in Grand Blanc, but you can never be too sure and I would rather not risk it... Going through your church is a great move though. These people need it as well as the blessings that will cover every case along the way from Kalamazoo to Flint ☺

I am taking the water to one of the churches here (my church, Mt Zion). My Pastor made a push for all the churches (Northside Ministerial Alliance) in our area to donate water and the City of Kalamazoo volunteered to transport the water to Flint. So I will purchase the water and take there and it will be on its way to Flint Tuesday. It saves me a trip. I really did want to bring it there personally, but that won't be happening. The water is being transported to one of the Flint churches. They said they within the community and people can come and graciously get water.

I'm trying not to be discouraged. I would like to volunteer my time but I can't during the week. An 8 hour day would be take up with 5-6 hours of travel and I have to be home for my children. I really wanted to do something to make a difference. Maybe I still am. I hope you're not affected by the lead in any way. Guess I'll catch you at the mandatory staff meeting. ☺

Hey there, do you live in Flint? Are you affected by the water situation or have family that is? My church is collecting water and getting it to Flint and all but I am looking into how BSBP can help those who are directly affected rather it be our consumers or employees.

We have a conference room and should be able to stack it up in there, although the room doesn't have a lock put on the door yet. Doubt if they can steal case of water without being seen though lol. Fred covers Genesee county so he should definitely be able to provide water to his consumers' homes when he goes out in the field! I'll let him know. Thank you!!

Now you know it's bad when the bottled water is bad. Come'on!!! I am purchasing bottled water today and will be bringing it to the Flint office Monday. I have contacted Beth and Janet. Yall got room for about 50 cases of water to take home or drink at the office or take to consumers' homes when you do visits?

Hey!!

I live in Grand Blanc, but it's SO CLOSE that I'm not sure what is really going on with my water either. I don't drink anything around here anymore. It's scary because I think of all of the times I used our water fountains here in the Flint office before they provided us with a filtered water machine, and all of the times I've bought coffee and eaten out at Flint restaurants. It is really sad for the children and the elderly, but many people are affected. I'm surprised that they have not tested us Flint-based SOM employees for lead. I'm going to get my blood tested by my PCP in a week or so because she wants to document my levels just in case... Also, I just heard yesterday from other staff in this building that some of the water that was donated to families here has a recall! Whichever brand that had Star Wars on it recently, not sure which it was smh. So people are drinking tainted bottled water as opposed to the tainted Flint water. It is crazy around here...
