This exhibit will be exciting to the young and old. Take your time on a self-guided tour or schedule a group and be led by a docent. Enjoy lessons about blindness and visual impairment through reading, writing, geography, science and mathematics. You can try your hand at one of the brailers on display, inspect an artifact, touch a relief map, examine a reproduction of a relief eye, even count on an abacus. This is just a small sample of the many items you will be able to explore.

If you have any questions, please feel free to contact the Society for the Blind and Visually Impaired at **314.968.9000** or e-mail us at [exhibit@slsbvi.org](mailto:exhibit@slsbvi.org). We look forward to you joining us in 2011.

*“In Touch With Knowledge”*  
The Educational History of Blind People and Historic Braille Writers is a travelling exhibit owned by the prestigious Callahan Museum of The American Printing House for the Blind, Louisville, was made possible by a gift from Eugene Callahan in memory of his wife, Marie.

The Society for the Blind and Visually Impaired and generous donors have secured this exhibit and will bring this experience to St. Louis for the first time ever in January 2011.
