

FREE Service for Qualified Residents in Burlington County, NJ

JEVS Human Services Assistive Technology Services

Now Available in NJ!

Assistive Technology (AT) allows individuals with mobility impairments or other disabilities to perform functions that might otherwise be difficult or impossible. AT means increased independence, freedom, safety, and autonomy!

What We Provide

- Evaluation
- Access to Equipment
- Training and Support

Evaluation

Our Assistive Technology Practitioner will perform a personalized evaluation in the comfort of your home and workplace.

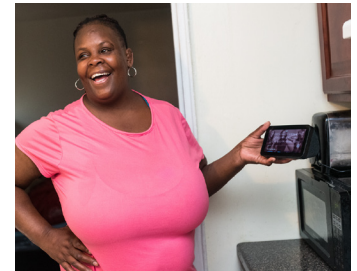

Equipment

Trial devices from JEVS Assistive Technology Equipment Library.

Training & Support

We will assist with device procurement, provide training to the individual, family and support staff, and ongoing technical support.

Gain Greater Independence, Build Confidence and Achieve Your Goals!
