Who We Are & What We Do

The National Federation of the Blind, the oldest and largest organization of and for the blind in the US, is made up of blind/visually impaired people of all ages, and their families and friends. We help newly blind people adjust to eyesight loss, assist parents and teachers of blind children, and promote the full participation and integration of blind people in our communities. Our activities include:

- Assisting blind persons in acquiring the skills of independence and developing confidence in themselves
- Supporting parents and teachers of blind children with information, mentoring, role modeling, and training
- Preparing blind students for careers and self-sufficiency through mentoring, training, and academic scholarships
- Encouraging blind seniors to continue to live active and meaningful lives
- Advocating for policies that eliminate discrimination, promote civil rights, and guarantee equal access to high quality educational and rehabilitation programs
- Sponsoring information campaigns and legislative action at the state and national levels
- Educating the public through community activities and publications

Spotlight on the NFB of New Jersey

Since 1976, the National Federation of the Blind of New Jersey, an affiliate of the National Federation of the Blind, has been providing invaluable information and resources to blind/visually impaired people throughout the state. Our members work together for a brighter tomorrow by raising expectations for blind people everywhere so that blind persons can live the life they want. Our seven chapters meet monthly; our four divisions and our three committees meet at various times throughout the year." Please join us — we would welcome your participation and membership. For more information on the affiliate, chapters, divisions, committees, programs, and projects, visit www.nfbnj.org.

Live the Life You Want

The National Federation of the Blind knows that blindness is not the characteristic that defines you or your future. Every day we raise the expectations of blind people because low expectations create obstacles between blind people and our dreams. You can live the life you want; blindness is not what holds you back. Together with love, hope, and determination, we transform dreams into reality.

The National Federation of the Blind Pledge

I pledge to participate actively in the efforts of the National Federation of the Blind to achieve equality, opportunity, and security for the blind; to support the policies and programs of the Federation; and to abide by its constitution.

Integrity and Respect

To allow all attendees the chance to benefit from all aspects of the convention, we are committed to providing a harassment-free environment for everyone. We appreciate your assistance in cultivating an atmosphere in which participants from diverse backgrounds can learn, network, and share with each other in an environment of mutual respect. Thank you for doing your part to contribute to our community and the high expectations we strive to maintain.

Covid Protocol

Masking will be required in all convention spaces when not actively eating or drinking. Acceptable masks are N95, KN95 or KF94. Cloth masks or surgical masks are not sufficient. [Project N95](#) has several different brands and varieties; free N95s are also available in a limited capacity in most retail pharmacies. The affiliate will be providing approved masks at the convention free of charge.

All attendees will be required to provide proof of a negative covid test taken within 72 hours of arriving. The test can be either a rapid antigen test or a PCR test. Free home tests are available from the state of New Jersey and the federal government. [Free accessible home rapid tests](#) can be ordered online, or by calling 1-800-232-0233. Accessible tests require use of a smartphone.

Results may be emailed to testresults@nfbnj.org or presented in person at the hotel. Confirmation of a negative COVID-19 test result is required to pick up registration materials and to participate in all convention activities.

Vaccinations are not required; however, it is strongly encouraged that attendees become up to date on their Covid vaccinations as these are the most effective way to prevent severe disease, hospitalization, and death, and are another tool to help slow the spread of the disease. The [New Jersey Covid-19 Information Hub](#) has additional resources on masks, testing, and vaccines.

Any conventioner who becomes positive while at convention must quarantine; all efforts will be made to deliver purchased food to your room coordinated by a chapter president. Refunds will not be issued under any circumstances since the Affiliate is required to pick up the cost for all meals ordered.

Meet our National Representative:

Shelia Wright grew up in a small town in South Carolina. Though her vision was never good, she did not know that she was blind until she was sixteen, when she finally saw an eye doctor that talked openly about her blindness and the importance of her learning Braille while she was still young. He urged Shelia and her parents to check to see if South Carolina had a school for the blind. This led her family to contact the Commission for the Blind, but the agency did little to provide the services she needed. They claimed she had too much vision to need training in Braille and Cane travel.

Shelia attended the University of South Carolina and received a B.A. in Psychology and a M.Ed. in Vocational Rehabilitation. She worked in the field of Rehabilitation for the Blind for over thirty years.

Shelia came to the Federation as a struggling blind person, having been told that she would never make it through a semester in college. When the National Federation of the Blind of South Carolina, through its then-President Donald Capps, weighed in on her behalf, rehabilitation services in South Carolina looked at Shelia in a whole new light. The Federation believed in her to such an extent that they frequently asked her to do things she thought she could not do. Each accomplishment propelled her toward becoming the woman she is today.

Shelia currently serves as the President of the National Federation of the Blind of Missouri. She was elected to the National Board of Directors in July 2022.

National Scholarship Program – Call for Applications Begins Nov. 1

Every year, the National Federation of the Blind awards more than \$120,000 to blind scholars across the fifty states, the District of Columbia, and Puerto Rico, in recognition of their achievements and professional aspirations. The scholarship program is our commitment to academic excellence and leadership among blind students, and each winner is awarded based on academic excellence, community service, and leadership. The application process opens November 1. To learn about eligibility and requirements of the 2022 scholarship program visit this link: <https://www.nfb.org/programs-services/scholarships-and-awards/scholarship-program>

Review the online scholarship application checklist and program FAQs. Let others know about this program that invests in the future of blind people.

Pre-Authorized Contribution Plan (PAC Plan)

PAC stands for Pre-Authorized Contribution. Each month, the amount you have designated is automatically deducted from your checking or savings account. That sum, which may be as little as five dollars, helps fund projects like the NFB Free White Cane program, and is also used to take care of “rainy day” expenditures that may arise unexpectedly.

To arrange for PAC Plan contributions, go to www.nfb.org/pac and fill out the form. The National Center will call you to take payment information. You can also call 877-635-2711 or email pac@nfb.org to enroll. The National Center will contact individuals for financial and banking information following the convention. Donations can be direct withdrawals from a checking account or charges to a credit card for additional assistance, contact Annemarie Cooke, Treasurer, National Federation of the Blind of New Jersey, by phone at: 609-859-4084, or by email at: aec732@gmail.com.
