loving and caring. This has made the family a family in the Ghanaian community in which it is found. I am happy to belong to such a glorious family.

The kind of activities my family and I enjoy doing together are, we do enjoy worshipping and praying together. We also involve our selves in story telling and listening to local news.

My responsibilities at home are washing bulky areas, scrubbing the bath house and sweeping the compound as well as running errands for my family parents and others. I want to be YES participant because it will enrich my cultural heritage since it is a cross or inter-cultural study programme aimed at imparting the cultural values of different people into me.

Being a YES participant it will serve as a fertile ground for socialization to take place since I will have opportunity to interact and socialize with new friends.

It will also serve as a moral booster to other people so that when opportunity comes their way they will utilize it. The acquisition of extra tuition will lead to the increment in knowledge and skills in the academic field.

The plans I have for my future and career are to be some a practitioner lawyer and a politician. To make sure that all children at school going age in the rural areas are enrolled in school.

I wish this letter will meet your maximum and satisfactory co-operation. I wish you a happy Christmas and a prosperous new year.

Thank you

Yours Sincerely

[REDACTED] Isaac.
