

## NJ Consortium for Deafblindness

**NJCDB** goal is to assure the provision of high quality education programs within natural environments, supported inclusive settings and appropriate services for infants, toddlers, children and youth who are deafblind.

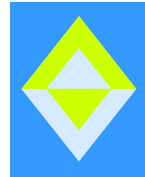

**NJCDB** goal will be accomplished through a menu of discrete initiatives within a responsive statewide approach for families, educators and community service providers under the following objectives:

1. To facilitate the development and ongoing implementation of a *Statewide Community of Practice on the Education of Students with Deafblindness* that includes family members; deafblind adult consumers; early intervention, special and general education personnel; and state and local educational agencies;
2. To develop and implement a well coordinated and responsive centralized system for professional development (including on-site coaching support) specific to the needs of students who are deafblind; and
3. To develop a statewide initiative for the early and ongoing identification of infants, students and youth with deafblindness.

**NJCDB** is committed to improving the education and outcomes of all New Jersey students with deafblindness, and significant disabilities. Project services can be accessed by individuals with deafblindness, families of children with deafblindness as well as school personnel and other service providers working with children and youth who are deafblindness.

Training Faculty includes the following:

- ◆ New Jersey Consortium on Deafblindness
- ◆ The College of New Jersey

# Intervener 5 Day Course of Study

Limited Space

November 5, 6, and 7, 2009  
&  
March 18 and 19, 2010  
at  
The College of New Jersey  
2000 Pennington Road  
Ewing, NJ 08628

The course of study is designed to

- provide participants with theoretical knowledge
- practical skills to carry out their role in providing individualized support.

The course format includes seminars and practical workshops provided by an interdisciplinary team of experts in the field of Deafblindness.

This training is being offered and appropriate for those individuals that are performing Special Support Person Services (SSPS)

New Jersey Consortium on Deafblindness will offer CEU accreditation at 40 hours.
