Our riders have a vital role in the mobility services we provide. Your input lets us know what transit options you need to ensure you can get where you want to go. This is especially important for riders with mobility challenges who are unable to easily access or use regular buses.

The community voice for these riders is the Access Paratransit Advisory Committee (APAC). Committee membership is comprised of Access riders, family members of Access riders, representatives of organizations that provide services to Access riders and representatives of organizations that support Access riders who have limited English proficiency.
